SUMMARY

Mobile Developer passionate about app development and great user experience. Hard-working and a natural leader able to bring out the best in others by creating a healthy environment where everyone is comfortable sharing ideas and concepts, resulting in the best a team has to offer.

SKILLS

- | | | |
|-------------------|-------------|-----------------------|
| • Swift / SwiftUI | • HealthKit | • RevenueCat |
| • Amplitude | • Python | • discord.py |
| • Git | • Xcode | • Local Notifications |

EXPERIENCE

Software Developer • BurnBar

05/2025 – Present

- Lead iOS development of BurnBar, a production health & fitness app on the App Store with a 4.7+ rating.
- Partner directly with the client and design team to build a custom SwiftUI experience that gamifies daily exercise.
- Integrate HealthKit, Firebase, Amplitude, RevenueCat, and local notifications to deliver a complete, data-driven user experience.
- Ship regular App Store updates and develop new features that surface deeper insights into users' habits and progress.

Software Developer • Personal Projects

06/2024 – Present

- League Scout: Published iOS app on the App Store — a fantasy football manager search system using the Sleeper REST API.
- Black Cloverdle: Daily character guessing game for the anime Black Clover, currently in TestFlight.
- Punk Records: Discord bot built in Python (discord.py) for the Oregon One Piece Card Game community to track match results and leaderboards.
- Ping & Pen: Communication app in the design phase focused on one-to-one support and artistic journal entries shareable to social media.
- Built additional practice apps to strengthen skills: a breathing timer, a flight-path weather safety report, and a reaction-based high-score game.

Comedy Writer • Upwork (Remote)

01/2021 – 06/2024

- Created and added humor to videos, speeches, podcasts, marketing emails, company communications, tweets, roasts, and greeting cards for individuals and small organizations.
- Maintained a 100% job success rate across all projects.

Virtual Team Building Host • Cadence (Remote)

01/2022 – 07/2022

- Hosted virtual team-building events on Zoom for remote companies, including Trivia, Great Remote Race, Storytelling, and Ice-Breakers with up to 40 attendees.

EDUCATION

Mobile Developer • The Tech Academy

2024

Bachelor of Arts in Comedy Writing and Performance • Columbia College of Chicago

2020
